

## Task 8.1.3

Query: INSERT into Purchase (custName, shipDate) VALUES ('Max Wang', '2016-05-12');

35	04:37:44	SELECT * FROM PurchasedItem LIMIT 0, 1000	Error Code: 1146, Table 'test.PurchasedItem' doesn't exist 0.000 sec
36	04:37:55	SELECT * FROM PurchasedItem LIMIT 0, 1000	1 row(s) returned 0.001 sec / 0.000 sec
37	04:41:02	INSERT into Purchase (custName, shipDate) VALUES ('Max Wang', '2016-05-12');	1 row(s) affected, 2 warning(s): 0.002 sec

### What happens after inserting?

We create an entry into our database that has a shipDate and are missing an orderedDate. This is an invalid entry.

### How do you solve the problem?

The best approach to fixing this problem is to ensure that the ordered date is not null.
