

Adding line number to the output

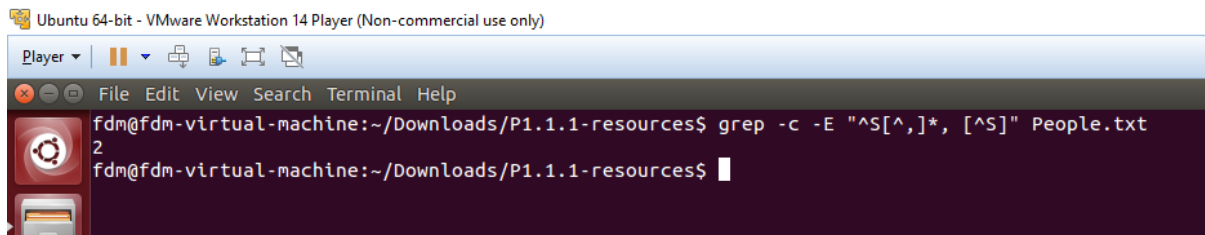

```
fdm@fdm-virtual-machine:~/Downloads/P1.1.1-resources$ grep -n -E "^S[^,]*, [^S]" People.txt
12:Schmidt, Paul
14:Smith, Peter
fdm@fdm-virtual-machine:~/Downloads/P1.1.1-resources$
```

-n is use to print line number to the output window

Command: `grep -n -E "^S[^,]*, [^S]" People.txt`

Printing Number of Matches rather than Matches

```
fdm@fdm-virtual-machine:~/Downloads/P1.1.1-resources$ grep -c -E "^S[^,]*, [^S]" People.txt
2
fdm@fdm-virtual-machine:~/Downloads/P1.1.1-resources$
```

-c is use to print number of matches to the output window

Command: `grep -c -E "^S[^,]*, [^S]" People.txt`
